PROJECTS

Backyard Jungle
Handlebars, Bootstrap, Express, RESTful API
- Registered users can post, comment, and perform plant ID searches.
- Certain aspects of the web app are restricted, needing a login to use it.

Mix Up Movie Night
CSS, Bulma, JavaScript
- Users choose their preferences in film genre and drinks from the presented tiles. Using two different APIs, a randomizer gets the user preferences and presents them with a movie and drink pair.

Tech Blog
Express
- Using a software that tests REST API, the user is able to create and account, add friends, make original post, and comment on posts.

Conversation Ender
CSS, JavaScript
- A text adventure where the player makes choices that impact the experience of the game.

WORK EXPERIENCE

Black Hammock Bee Farms
2022 | Orlando, FL
Customer Service
- Independently maintained the social media accounts and marketing.
- Increased the social media following:
  - Facebook: 50%;
  - Instagram: 130%, then steadily increasing
- Prepared and delivered multiple updates for the company on a daily basis.

Inova Fairfax Hospital
